CCR No. 97-0849	**Logged Date** 5/27/97	**Rev.** -	**Request Type** CCR

Priority Routine ☐ Urgent ☐ Emergency ☒	**Affected Release** B	**Change Class** II

Title (description)
Request re-allocation of memory for Nelix

Documents Affected None	**Source Nos** (RID, NCR, Action Item, GSFC CCR, etc.) **or** **Tech Reference** None

RTM Change ☐   **Start New Baseline** ☐

Problem
CM VOB Server NELIX is running almost at a standstill and emergency action is necessary to try and resolve the problem.

Proposed Solution

Request a temporary loan of memory to perform a test to see if added memory will help with a problem.

Install in NELIX (EIN 4415):

4 - 128MB simm boards from EIN 1922.
The Serial numbers of the simms are:
128MB SIMM   501313678023995
              501313678020896
              501313678023776
              501313678023862

4 - 128MB simm boards from EIN 1859 (shining)
The Serial numbers of the simms are:
128MB   501313678016879
      501313678016841
      501313678005976
      501313678005922

4 - 128MB simm boards from EIN 1881 (moon)
The Serial numbers of the simms are:
128MB   501313678016821
      501313678016920
      501313678013899
      501313678013901

If the memory is going to stay in EIN 4415 (Nelix), we need to assess how much memory is needed to backfill into EIN 1859 (shining) and EIN 1881 (moon) to satisfy their memory requirements for the functions they are designated to perform.

If necessary, then a procurement CCR will be submitted by Mike Demscak to the ECS CCB to backfill for the borrowed memory chips.
